DETAILED ACTION

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a process for the preparation of a doped pentasil zeolite comprising the step of adding a doped non-zeolitic seed to a precursor mixture, in combination with the other features instantly claimed.

US 6,667,023 and US 5,232,675 are regarded by the examiner as the closest prior art. US 6,667,023 discloses a process for preparing an MFI zeolite using an amorphous aluminosilicate nucleating gel. Refer to column 2. The reference does not disclose that this gel is doped and does not provide any motivation to do so. US 5,232,675 discloses a rare-earth-containing pentasil zeolite which has been synthesized using a rare-earth-containing faujasite zeolite seed. Refer to columns 2-4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christina Johnson whose telephone number is (571)
